**STRATA Architecture Inc.** is a woman owned, small business with extensive experience in historic restoration and renovation, adaptive reuse, new construction, and planning in both residential and commercial construction. Representing over 30+ years of architectural experience, our firm specializes in existing buildings and sites, adaptive reuse, smart growth and new construction within a historic context.

With a special emphasis on contextual suitability, our design approach responds to the unique challenges of each project with the goal of both satisfying the client and developing sound and appropriate architectural solutions. Each solution is tailored to fit the opportunities and constraints of the individual project's design, budget, and schedule - an approach that has resulted in a noteworthy history of implemented on-time and on-budget projects for the firm.

**STRATA Architecture Inc.** represents a commitment to the field of historic preservation and renovation, exemplified by their dedication to historic buildings. The firm is headquartered in Downtown Kansas City, Missouri, within a 1960s Mid-Century Modern building.

**STRATA Architecture Inc.** has professional registration in the State of Missouri and Kansas and has NCARB certification for registration in additional states. The firm has been a bona fide Women's Business Enterprise (WBE) since 1989. STRATA meets all 36 CFR Part 61 requirements for Historic Preservation Professionals set forth by the Federal Advisory Council on Historic Preservation. Our firm has experience working with Local, State and Federal Historic Preservation agencies on numerous projects and have extensive experience with the Historic Rehabilitation Tax Credit program.
